

MESHKAT UDDIN AHAMMED

Cell: +880-1805726354

E-mail: meshkatuddinahammed@outlook.com

Address: Chattogram, Bangladesh

Portfolios: [Kaggle](#) | [GitHub](#) | [LinkedIn](#) | [LeetCode](#) | [GeeksforGeeks](#)

PROFESSIONAL SUMMARY

Software Engineer with hands-on experience in building production-grade systems, specializing in Python ecosystem for building scalable, reliable, and maintainable web applications. Skilled in Python, Django, FastAPI, AI/ML, TensorFlow, and Docker with practical exposure to deploying scalable software solutions. Strong foundation in DSA, OOP, & System Design.

TECHNICAL SKILLS

Programing Languages: Python (Proficient), Java

Backend Development: Django, FastAPI, Spring Boot, REST API

Frontend Development: HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, React.js

Databases: MySQL, Oracle, PostgreSQL

DevOps: Git, GitHub, GitHub Actions, Docker

Network & System Administration: Linux, IP Subnetting, VLSM, Summarization, Basic IP Routing, Network Troubleshooting

AI / ML: EDA, Feature Engineering, Deep Learning, LLM Finetuning & Evaluation, Prompt Engineering, TensorFlow, LangChain

CS Foundations: Data Structures & Algorithms, Object Oriented Programming, Database Systems

AgileOps: Extreme Programming, SOLID principles, Design Patterns, TDD

PROJECTS

Energy Market Knowledge Assistant — *Python, LangChain, ChromaDB, FastAPI, React, TypeScript*

[GitHub](#)

- Built a Retrieval Augmented Generation (RAG) powered domain specific knowledge assistant for energy trading leveraging LLM for embedding generation and chatting with improved contextual accuracy over standalone models.
- Designed end-to-end system architecture (data collection, ingestion, embedding, similarity search, retrieval, and response generation) ensuring efficiency and scalability of the system.
- Implemented MLOps by exposing the service via FastAPI and containerizing using Docker, creating a modular service prepared for scalable production environments.

Energy Data Dashboard — *React, Redux Toolkit, Tailwind CSS, Recharts, Vite*

[GitHub](#) | [Live](#)

- Built responsive energy price dashboard visualizing data across 6 European countries over 30-day periods, implementing Redux Toolkit for global state management to synchronize UI filters (country, date range) with asynchronous data fetching
- Designed accessible interface using Tailwind CSS with dark/light theme toggle and mobile-responsive layouts, featuring dynamic multi-line Recharts visualizations to display price volatility and trends

Real-Time Exercise Monitoring System — *JavaScript, TensorFlow.js, MoveNet, Tailwind CSS*

[GitHub](#) | [Live](#)

- Built browser-based fitness coaching tool using TensorFlow.js and MoveNet, providing live posture guidance and rep counting with automatic camera mirroring for intuitive movement matching.

Staff Productivity Monitoring System — *Python, OpenCV, ArcFace Face Recognition*

- Built an enterprise tool using facial recognition to automatically track per-employee desk presence duration and send real-time alerts to management for notable events.
- Engineered a robust identity pipeline resilient to varying lighting conditions and face angles across live CCTV streams.

- A fully featured e-learning system with teacher/student roles, supporting article writing, quiz creation, quiz participation, and a discussion forum.

PROFESSIONAL EXPERIENCE

ERP Support Engineer | BD Designs Pvt Ltd., Chattogram, Bangladesh

May 2025 – Jan 2026

- Resolved 200+ technical issues and user queries per month across Sage 300 ERP and FabTrakr MES, maintaining 95% uninterrupted system operation and average response time of less than 1 hour
- Conducted training sessions on Sage 300 ERP workflows and best practices, reducing transaction entry time by 20% on average
- Collected 20+ feature and report requests monthly and collaborated with dev team to get them developed within 2 working days
- Developed python script to automate excel report cleaning, reducing daily reporting time by 50% for shipment status report

AI Engineer Intern | Deep Mind Labs AI, Dhaka, Bangladesh

Sep 2024 – Mar 2025

- Built a facial recognition system for automated employee desk presence tracking, achieving 90% identification accuracy across diverse lighting conditions
- Developed a range-of-motion analysis system for physiotherapy applications, calculating joint angles across 12 body points in real-time
- Developed a shoplifting detection system proof-of-concept for supermarket security, achieving 95% classification accuracy across normal, suspicious, and shoplifting behavior categories

Software Developer Intern | DataSoft Systems Bangladesh Ltd., Dhaka, Bangladesh

Feb 2024 – Apr 2024

- Migrated TrainingPRO - an e-learning management system from MySQL to Oracle, rewriting all stored procedures, functions, views, and triggers using PL/SQL in oracle
- Optimized Spring Boot backend services to meet Oracle requirements, ensuring data integrity and full API compatibility post-migration
- Validated end-to-end functionality in the frontend using browser developer tools to confirm correct API responses across all system features

Executive — IT Infrastructure | BD Designs Pvt Ltd., Chattogram, Bangladesh

Jan 2019 – Jan 2024

- Architected a corporate Local Area Network (LAN) of ~150 endpoints using Cisco & MikroTik routers and switches, achieving 97% network uptime across all systems
- Configured Virtual Private Network (VPN) client connectivity for remote users, managed IP addressing across corporate network, and troubleshoot software and network issues to ensure operational continuity for 150+ users
- Managed IT procurement lifecycle and performed routine database and payroll server backups, safeguarding critical business data

Executive — Boiler Operations | S. Alam Power Plant Ltd., Chattogram, Bangladesh

Nov 2015 – Dec 2018

- Operated and monitored an industrial steam generation system, ensuring uninterrupted power plant operation

EDUCATION

B.Sc. in Electronics & Telecommunication Engineering

GPA: 3.26 / 4.00

International Islamic University Chittagong | Chittagong, Bangladesh
