

ABDULLAH JAWAID

Gulshan e Iqbal, block 2, Karachi, 75300 | +92 334 3664340 | abdullahjawaid@hotmail.com

Summary Statement

- Initiative-taking Electrical Engineer with 10+ years of experience excelling in electrical design, project management, and Installation, Testing & Commissioning. Proven record in team engagement, equipment procurement, and project execution. Effective communicator with expertise in handling contractors, vendors, and clients. Proficient in progress reporting and adept at ensuring project success through meticulous diligence and efficient procedures.

Project Based Experience

- Testing & Pre-Commissioning Lead | E-House for DS03 Electrical Power Upgrade at CPS4 for Rumaila Operating Organization (ROO) – Iraq | May-Jul 2024

· Achievements:

- Thoroughly conducted internal testing of ABB ZS1 6.6kV Switchboard (16 panels), including motor and transformer feeders, EATON 400V switchboard, Chloride DC UPS 60A, F&G system, and auxiliary systems.

- Successfully led the integrated Factory Acceptance Test (iFAT) with the customer for the entire E-house, receiving appreciation for its successful completion.

- Project Lead | LV Switchboard & Soft Starter Panels for AVINA Clean Hydrogen Inc. – USA | Apr-Present 2024

· Achievements:

- Leading the sourcing and design validation of ABB ReliaGear Switchboard and standalone PSTX series soft starters.

- Ensuring technical compliance and meeting tight deadlines by offering fast delivery products.

- Commissioning Lead | E-house Commissioning Services at Basrah Natural Gas Liquefaction Plant (BNGL), Basrah Gas Company (BGC) – Iraq | Mar-Apr 2023 & Jan-Apr 2024

· Achievements:

- Managed multiple vendors and clients from technical, commercial and administrative aspects to execute Site Acceptance Tests, pre-commissioning, and commissioning of 4 E-houses.

- Provided technical support for first solo/load runs of the medium and low voltage motors and troubleshooting throughout the project execution.

- Enhanced my role by conducting mechanical inspections, interlock checks, and making logic modifications to the switchgear, all to accommodate customer budget constraints.

- Installation Supervisor | Casting of Cast Resin Sandwich Bus ducts – 4000 A – KM500 Gas Treatment Plant (Pearl Petroleum) – Kurdistan Region of Iraq | Jan 2024

· Achievements:

- Effectively supervised the casting of Cast Resin Sandwich Bus ducts rated at 4000 A.

- Displayed my adaptability by taking on challenges and self-training to meet and exceed customer requirements. 2

- Commissioning Lead | ABB E-house Commissioning Services at Basrah Natural Gas Liquefaction Plant (BNGL), Basrah Gas Company (BGC) – Iraq 3 Nos. Substations | May – Dec 2023

· Achievements:

- Managed multiple vendors and clients from technical, commercial and administrative aspects to execute Site Acceptance Tests, pre-commissioning, and commissioning of 3 ABB E-houses.

- Provided technical support for site modifications as per customer requirements.

· Electrical Lead | Frontier Works Organization 10,000 cubic meter / day SWRO Plant, Karachi – Karachi Nuclear Power Plant | Apr 2019 – Jan 2023

· Achievements:

- Single handedly managed multiple vendors and clients from technical, commercial, and administrative aspects throughout the design, procurement, installation, testing and commissioning phases of the project.
- Eyed for details to follow stringent nuclear facility requirements such as sourcing of scarcely available Class 1E category power cables.
- Used my negotiation skills to close out the procurement within budget and ensured deliveries ahead of schedule.

· Electrical Engineer | 8.2 MW 18V32 HFO Engine (used) with Switchgear System Engineering Review, Procurement, Installation & Commissioning – National Refinery Limited (NRL), Karachi | 2017 – 2018.

· Achievements:

- Supported team in the design, procurement and installation commissioning.

· Electrical Engineer | Implementation of Yokogawa DCS in Lube Refinery – NRL | 2017 – 2018

· Achievements:

- Successfully devised conceptual circuit for MCC operation from DCS, approved by Yokogawa engineering team and implemented.
- Enhanced site grounding system to follow Yokogawa requirement.

· Project Lead | Electrical System Upgrade of 4 MW 12V32 HFO Engine (Wartsila) – NRL | 2016 – 2018

· Achievements:

- Studied existing system and presented to Wartsila team to integrate new system with old system.

· Electrical Engineer | Replacement of 7.5 MW Steam Turbine, Control System Upgrade, and Overhauling of Alternator – NRL | 2015 – 2017.

· Achievements:

- Took charge of the project midway to address engineering challenges related to synchronization, load sharing, and integrating with the existing system.

3 · Electrical Engineer | Revamp of Crude Distillation Unit – NRL | 2015 – 2016

· Achievements:

- Reviewed FEED documents and ensured project compliance according to the design.

· Trainee – Senior Management | National Refinery Limited (NRL) | 2014 – 2015

· Achievements:

- Demonstrated active involvement in troubleshooting in different process areas including power generation. Was awarded with outstanding appraisal during this period.

· Trainee Engineer | Installation of Vertical Cement Mills - Lucky Cement Limited | 2014

· Achievements:

- Effectively worked on switchgear protection relay testing and power cables testing.

Education

Master of Engineering Management (Industrial Management) | NED university of engineering and

technology, Karachi, Pakistan | 2015 – 2016

Bachelor of Engineering (Electrical) | NED university of engineering and technology, Karachi, Pakistan
| 2010 – 2013

Skills & Abilities

Certifications

- Cast Resin Bus duct Installation and Maintenance | Virtual Training by LINKK | Dec 2023
- Professional Engineer (Electrical Engineer) | ANZSCO Skill Level 1 | Engineers Australia | Dec 2022
- O&M of 3500 Vibration Monitoring & Protection | Bentley Nevada | Lahore 2018
- Centum VP R6 (Maintenance, Engineering & PRM) | Yokogawa | Singapore 2017
- Advanced Power System Protection (ETAP) | NED University | Karachi 2013

Expertise

· Electrical Design Evaluation
(FEED) · Project Management · Contractors / Vendors

Managing

· Team Engagement · Equipment Procurement /

Sourcing · Communication Skills

· Installation, Testing &

Commissioning · Conducting FAT / SAT · Project Costing and
budgeting

· Functional Safety · Preparation of Work

Instructions and Procedures · Progress Reporting during

all stages of Project 4

Executed Tasks

· Leading Electrical Systems E-house projects including design of Single Line Diagram, design /
review / selection MV & LV panels, cable sizing and cable routing, selection of transformers,
selection of UPS, Fire Alarm System, and earthing system.

· Managing Installation, Testing and Commissioning of E-houses

· Planning project baselines

· Performing design reviews/evaluation including power system studies & presenting it to client for
approval

· Conducting procurement of project material such as HV/LV components (XLPE Cables, Switchgear,
Transformers, Power Factor & Reactors, Lighting System, Earthing /Grounding)

· Managing multiple stakeholders including consultants, joint-venture partners, national & international
vendors, and contractors to satisfy client's requirements.

· Aligning across functions tasks

· Initiating and leading activity/job planning sessions.

· Conducting FAT/SAT and Supervising & assisting Installation, Testing & Commissioning of
Electrical Equipment

· Managing all incoming & outgoing documentation

· Monitoring & Controlling project baselines and keeping track of Project Status

· Conducting project closeout

Experience

· Senior Design & Application Engineer | Intech Process Automation, Pakistan

(<https://www.intechww.com/>) | Jan 2023 – Present

· Senior Deputy Manager | Frontier Works Organization, Pakistan (<https://www.fwo.com.pk/>) |

Apr 2019 – Jan 2023

· Project Engineer | National Refinery Limited (NRL), Pakistan (<http://www.nrlpak.com/>) | Oct 2014

– Apr 2019

· Trainee Engineer | Lucky Cement Limited, Pakistan (<https://www.lucky-cement.com/>) | Jun 2014 – Oct 2014
